## IB mission statement

The International Baccalaureate aims to develop inquiring, knowledgeable and caring young people who help to create a better and more peaceful world through intercultural understanding and respect.

To this end the organization works with schools, governments and international organizations to develop challenging programmes of international education and rigorous assessment.

These programmes encourage students across the world to become active, compassionate and lifelong learners who understand that other people, with their differences, can also be right.

## CARING

We show empathy, compassion and respect. We have a commitment to service, and we act to make a positive difference in the lives of others and in the world around us.

## RISK-TAKERS

We approach uncertainty with forethought and determination; we work independently and cooperatively to explore new ideas and innovative strategies. We are resourceful and resilient in the face of challenges and change.

## BALANCED

We understand the importance of balancing different aspects of our lives—intellectual, physical, and emotional—to achieve well-being for ourselves and others. We recognize our interdependence with other people and with the world in which we live.

## REFLECTIVE

We thoughtfully consider the world and our own ideas and experience. We work to understand our strengths and weaknesses in order to support our learning and personal development.

The IB learner profile represents 10 attributes valued by IB World Schools. We believe these attributes, and others like them, can help individuals and groups become responsible members of local, national and global communities.

# Introduction

Founded in 1968, the IB currently works with 3,671 schools in 146 countries to develop and offer four challenging programmes to over 1,134,000 students aged 3 to 19 years.

Since 1983, the IB has been recognized by the Association of Indian Universities (AIU) as an entry qualification (equivalent to + 2 qualification of an Indian Board) to all universities in India. The IB is committed to supporting the large proportion of students who wish to remain in India for their undergraduate studies and creating pathways to enable more students (including NRIs) to consider this option.

This aim of this booklet is to provide an overview of university recognition in India with statements and website links of universities in India with updated policies. This is a guide for all stakeholders to understand the recognition landscape in India. As higher education institutions in the India respond to the growth of the IB, the booklet will be updated on a regular basis.

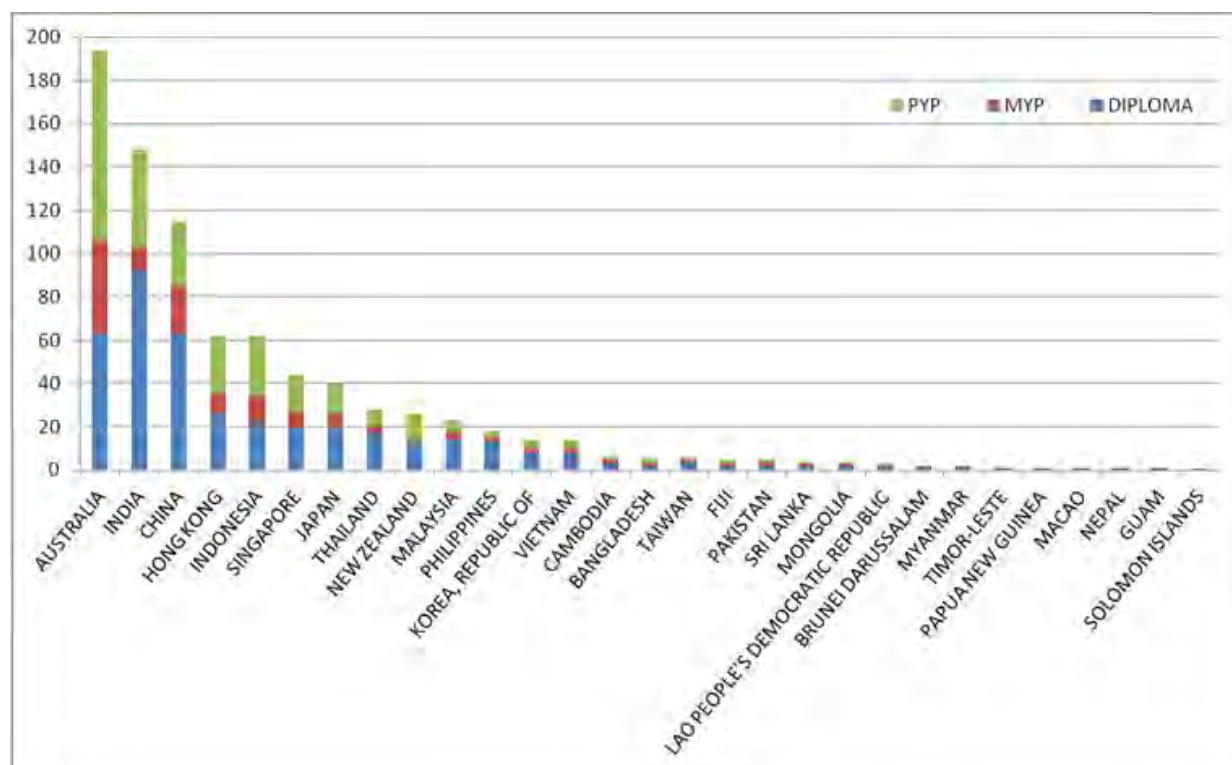

## Asia Pacific and India IB programme distribution

In the Asia Pacific region, there are more than 600 schools in 29 countries offering one or more of the three IB programmes: 404 schools offer the Diploma Programme (DP); 135 schools offer the Middle Years Programme (MYP), and 305 schools offer the Primary Years Programme (PYP). The distributions of the three programmes in the 29 countries in Asia Pacific are listed below (Chart 1).

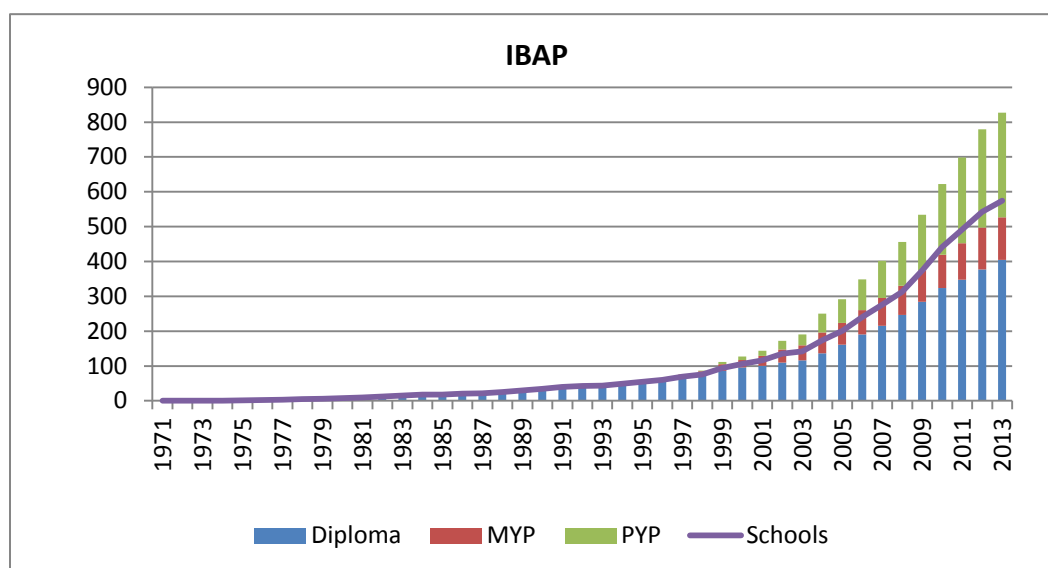

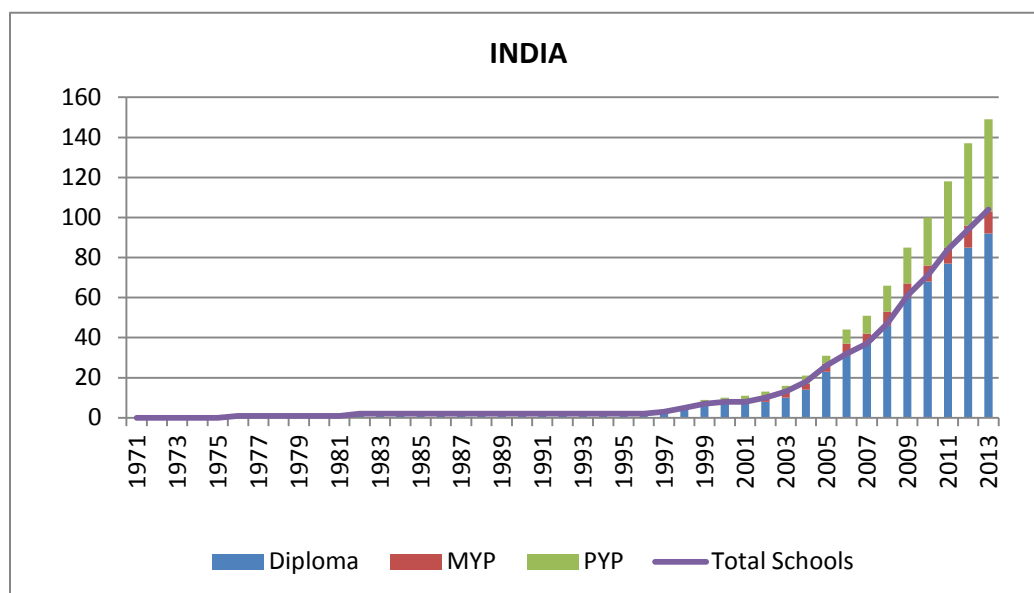

There are 107 IB World Schools in India offering one or more of the three IB programmes. 47 schools offer the Primary Years Programme, 11 schools offer the Middle Years Programme and 92 schools offer the Diploma Programme. The first school was authorized in 1976.

**Figure 1.** *Distribution of IB programmes in Asia Pacific, May 2013*

## Asia Pacific and India IB programme growth

**Figure 2.** Growth in the number of schools and programmes in India and the region

## Student enrolment and growth

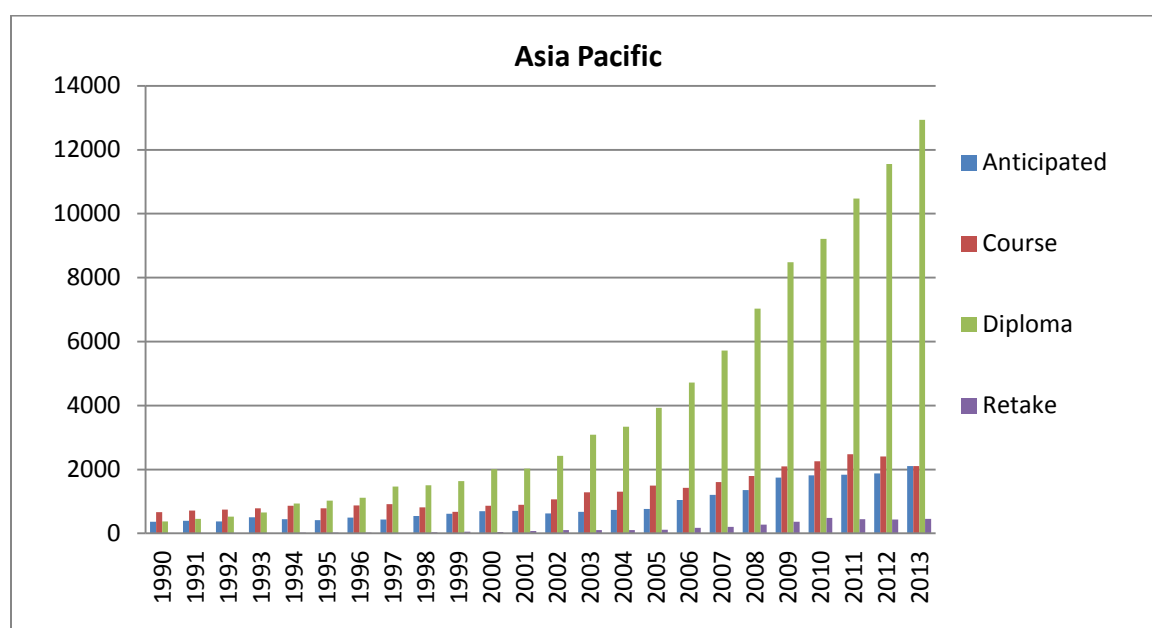

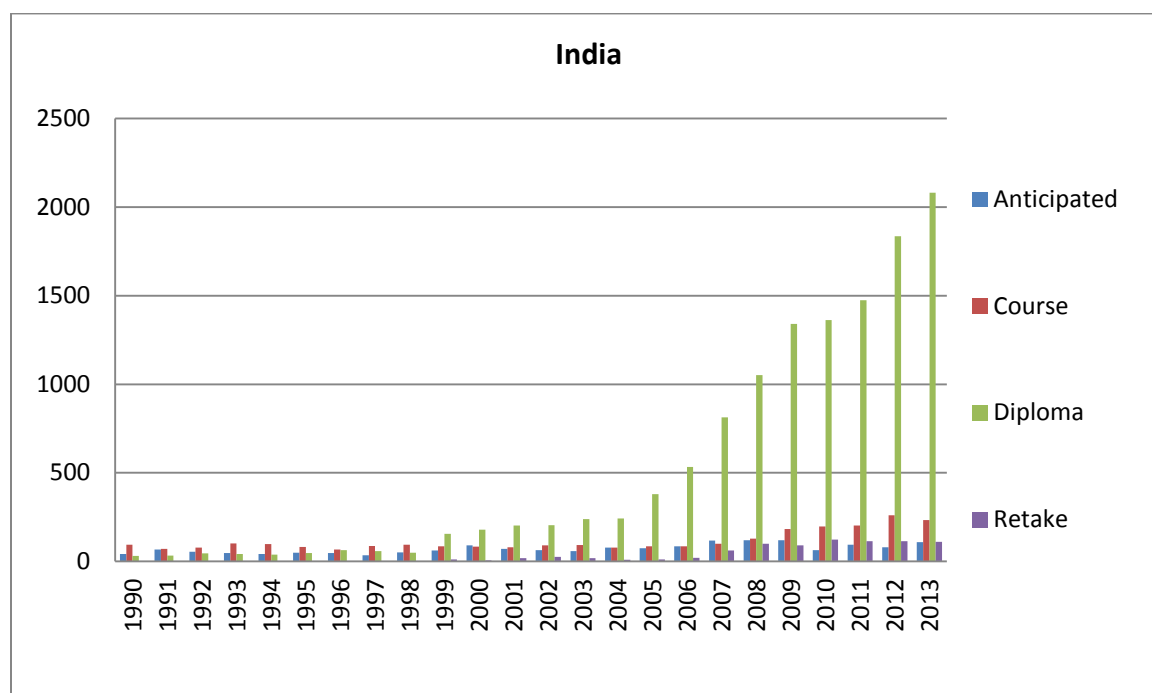

Nearly 140,000 students from around the world registered for DP exams in 2013. Over 17,000 of those registrants were from the Asia-Pacific region, and over 2,500 of those students took exams in India.

The Diploma programme in India has grown substantially, and over 15,000 Indian students have participated in the IB Diploma Programme in the past twenty years. The number of students participating in the programme in India has grown over 15% each year for the last 5 years, doubling in student enrolment since 2005. A similar trend has been seen in the rest of the region, growing at approximately 15% per year.

**Figure 4.** Growth in the number of DP exam takers in India and the AP region

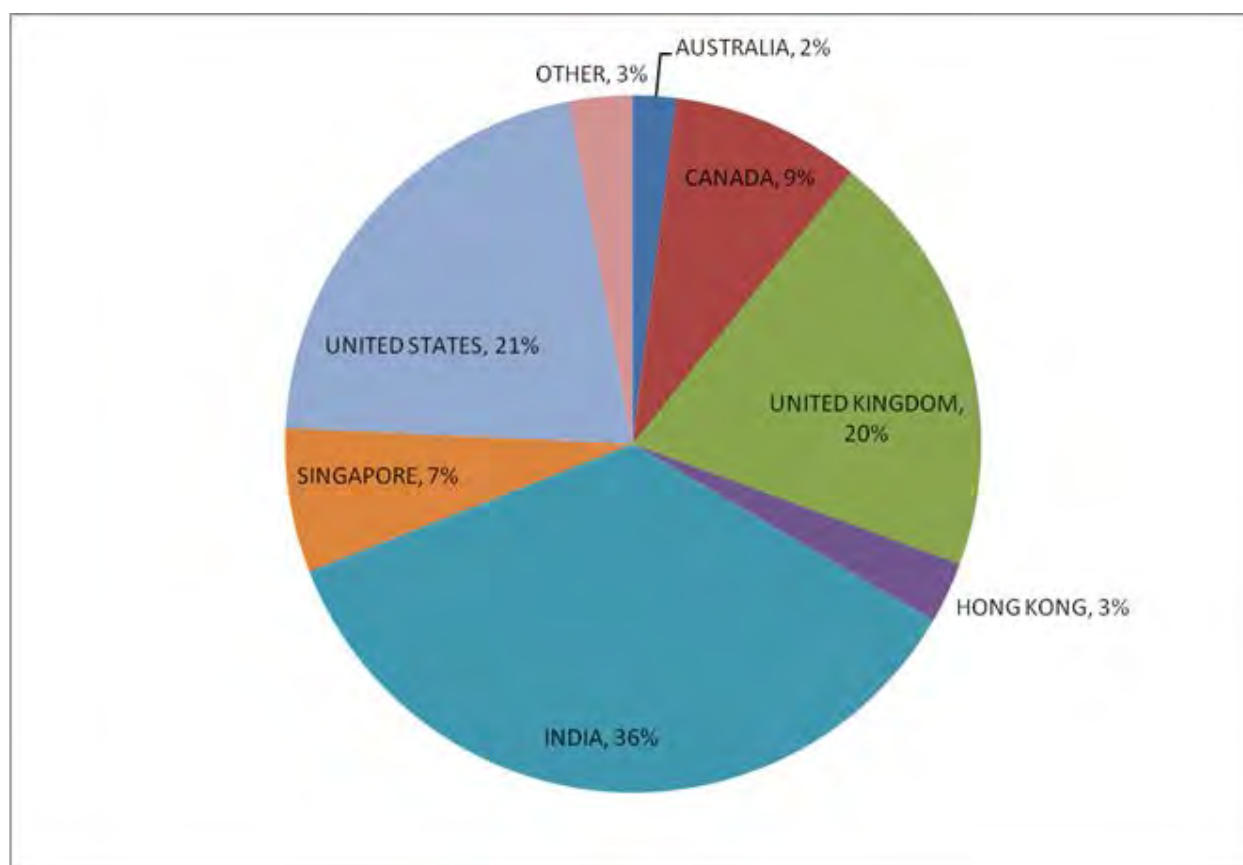

## Transcript requests data

In 2013, 2208 transcripts were requested by IB Diploma students to be sent to higher education institutions (HEIs) in India for the purpose of university admissions. This makes up to 12.7% of all the transcripts sent to HEIs in the AP region.

Indian passport holders request transcripts sent to HEIs in a variety of countries. Outside of India, the US, the UK, Canada, and Singapore are popular destinations.

## Overview of higher education in India

In India, “University” means a University established or incorporated by or under a Central Act, a Provincial Act or a State Act and includes any such institution in consultation with the University concerned, be recognised by the University Grants Commission (UGC) in accordance with the regulations made in this regard under this Act. Higher Education is the shared responsibility of both the Centre and the States. The Central Government provides grants to UGC and establishes Central Universities in the country. The Central Government is also responsible for declaring educational institutions as “deemed-to-be University” on the recommendation of the UGC.

At present, the main constituents of University/University-level Institutions are: - Central Universities, State Universities, Deemed-to-be Universities and University-level institutions. These are described as follows:

**Central University:** A university established or incorporated by a Central Act.

**State University:** A university established or incorporated by a Provincial Act or by a State Act.

**Private University:** A university established through a State/Central Act by a sponsoring body viz. A Society registered under the Societies Registration Act 1860, or any other corresponding law for the time being in force in a State or a Public Trust or a Company registered under Section 25 of the Companies Act, 1956.

**Deemed-to-be University:** An Institution Deemed to be University, commonly known as Deemed University, refers to a high-performing institution, which has been so declared by Central Government under Section 3 of the University Grants Commission (UGC) Act, 1956.

**Institution of National Importance:** An Institution established by Act of Parliament and declared as Institution of National Importance.

**Institution under State Legislature Act:** An Institution established or incorporated by a State Legislature Act.

There are 42 Central universities, 243 State universities, 53 State Private universities, 130 Deemed universities, 33 Institutions of National Importance and five Institutions (established under various State legislations). The number of colleges in 2011 is more than 30,000.

Entry to undergraduate courses is based on the performance in Class 12 examination and or Entrance test. Most of the professional institutes in India today prefer to conduct entrance exams for selecting candidates. The entrance tests are in the month of April/May or June. While some institutes participate in a common entrance exam, others may conduct their own individual entrance exams.

## **Engineering**

Technical education plays a vital role in human resource development of the country, Technical Education covers programmes in engineering, technology, management, architecture, town planning, pharmacy, applied arts & crafts, hotel management and catering technology. There are 82 technical institutions in India, which include 16 Indian Institute of Technology (IIT's), 30 National Institute of Technology amongst others.

For undergraduate programmes in IITs students are admitted on the basis of Indian Institute of Technology-Joint Entrance Examination (IIT-JEE). From the year 2013 the Joint Entrance Examination for admission would be conducted in two parts, conducted in two parts, JEE-MAIN and JEE-ADVANCED. JEE ADVANCED examination will be held after JEE MAIN with a suitable time gap. Only the top 150,000 candidates (including all categories) in JEE MAIN will be qualified to appear in the JEE Advanced examination. Admissions to IITs will be based only on category wise All India Rank (AIR) in JEE ADVANCED subject to condition that such candidates are in the top 20 percentile of successful candidates of their Boards in applicable categories. Admission to Undergraduate Engineering Programs at NITs, IITs, Other centrally funded Technical Institutions, Institutions funded by several participating State Governments, and several other Institutions is also done through Joint Entrance Examination, JEE (Main).

## **Medicine**

From 2013 there is a single Eligibility and Entrance Examination, namely, National Eligibility and Entrance Test (NEET) for admission to MBBS and BDS Course in each academic year.

There is a requirement to study three sciences for studying medicine in India. Whilst it is quite difficult to complete an IB diploma and take three IB science subjects, it is possible. Two options: The first option is to take an additional science subject as an 'extra' certificate. Although obviously this will come with extra work, the overall score for this extra course will not count towards the IB diploma score, and therefore the utility of taking the extra course is simply to satisfy the entrance requirements for the university requiring three sciences. The second option is to apply for a non-regular IB diploma, thus allowing three sciences to be completed, usually in lieu of a group 3 (Humanities) subject. A candidate may be authorized to take a non-regular diploma only if the

proposed higher education course allows no other alternative. You will need to contact the IB coordinator at the school to proceed with this request. Please note that this request must be submitted to the IB Cardiff office (via the IB coordinator) at least 18 months prior to the examinations, and there is no guarantee that such a request will be automatically be granted. Also worth noting is that taking three sciences only helps meet the minimum entry requirements for studying Medicine in most colleges; it does not guarantee entry. Students often will have to sit the entrance test which may require additional tutorials.

### **Other professional courses**

Law, Hotel Management, and Bachelor of Business Administration also have the entrance test.

### **Accreditation**

National Assessment and Accreditation Council, was established by the University Grants Commission to evaluate the quality of higher education in India. In addition to that, Professional councils are responsible for recognition of courses, promotion of professional institutions and providing grants to undergraduate programmes and various awards. There are 15 professional councils in India including All India Council of Technical Education (AICTE) which recognizes technical education in India and Medical Council of India (MCI) recognizes Medical education in India amongst others. Before enrolling for a professional course, students must check if the institute has the relevant accreditation.

### **Evaluation of Foreign Degrees**

The Association of Indian Universities is a society which promotes universities activities. The Evaluation division of AIU is responsible for the work relating to equivalence of degrees/certificates awarded by the accredited foreign universities/educational institutions. The Division also provides information to foreign students to facilitate their admission in Universities/other educational Institutions in the country.

## Recognition of the IB Programmes in India

Since 1983 **International Baccalaureate Diploma** has been recognized by the Association of Indian universities as an entry qualification to all universities in India. With the requirement for percentage conversion by universities in India, students applying to Indian universities receive a transcript with IB grades and suggested percentages. In order to receive Indian Transcripts, students must notify their Diploma Programme (DP) coordinator of their intention to gain entrance into an Indian university. The coordinator will then submit the request using the Request for results service on IBIS (secured website for IB coordinators).

Students applying to Indian Universities can apply for an equivalence certificate from AIU upon release of their results, or apply directly to the eligibility department of the university they wish to attend.

Admission to most university courses is based on the academic achievement in Class 12 or entrance test. Entry requirements vary from university to university and course to course. Prior to commencing the DP, students and parents must be familiar with the required subject combinations and levels for the student's future career path; this should ensure students' eligibility for particular professional courses. A student interested in studying an undergraduate course must make direct contact with the college or university he or she would like to attend to check specific course and entry requirements.

Association of Indian Universities equates International Baccalaureate **Middle Years Programme** with grade 10 of an India Board Assessment. Students having completed the MYP are now entitled to apply for admission for higher studies in any school in India

## Documents required for admission to Indian Universities

- Indian transcript and Migration certificate issued upon release of results, sent to the DP coordinator at the school. ( for students to get the documents from the IB, a request for an Indian transcript should be made through IBIS by the Diploma coordinator
- Character Certificate from school if applicable
- Transfer certificate from School if applicable

Note: Since admission to most colleges in India take place much before the results are released, it may help for students to ask the school to issue a letter stating the date of results release. Students must also take a copy of predicted grades with past performance in a sealed envelope for universities

Dear Ms. Taneja,

I am writing in response to your mail of December 7, 2010. We would be happy to consider the IB Diploma Examination to be equivalent to the II PUC/12th standard examination for the purpose of admission to our undergraduate programme. However, please note that this programme is at present open only to students holding Indian passports and they have to qualify for admission through a national examination such as KVPY, IIT-JEE, AIEEE and AIPMT. If a student is selected for admission and the results of the final examination are not available at the time of counseling (third week of June 2011), his/her admission will be provisional. When classes start in the first week of August 2011, the student will have to produce a marks card that confirms that he/she has studied Physics, Chemistry and Mathematics as main subjects and received a first class (60%) or equivalent grade in the final examination.

Please feel free to contact me if you need more information.

With best regards,

Sincerely,

Chandan Dasgupta  
Dean, Undergraduate Programme

Dear Ms Taneja:

Kindly refer to your letter of August 01, 2012 regarding the issue of recognition of IB Diploma as equivalent to 10+2 certificate issued by any Indian School Board for admission consideration at Ahmedabad University. This issue was discussed in the Academic Council meeting of the University in its meeting on August 27, 2012. The Academic Council of the University has decided to approve your Diploma for admission to the programme as equivalent to 10+2 school certificate of any Indian school board.

Regarding the provisional admission to the IB students, we are unable to make a commitment at this point of time as all admissions are based on the University norms as well as the Government of Gujarat directives.

With best wishes,

Yours sincerely,

**Minimum eligibility**

The minimum eligibility to apply to FLAME's undergraduate programme is the following:

You must pass Higher Secondary School (10+2) or its equivalent examination with any recognised school/ statutory board with English as a requirement for passing. Candidates in their 12th standard or equivalent class can also apply provided they would be completing their final examination before 30th May 2014 and can produce their final certificate / mark sheet before 30th September 2014.

For State Boards, CBSE and ISC or its equivalent boards, a proof of passing with minimum 45% aggregate marks is the requirement.

For International Baccalaureate students, a diploma is the minimum requirement. An International Baccalaureate certificate student is not eligible for admission.

For Cambridge University students, 'A' Level certificate is the minimum requirement with three advanced level courses.

We accept SAT scores for qualifying directly to the Group Discussion (GD) and Personal Interview (PI), if you do not wish to give FEAT. We do not specify a cut off score for SAT which would guarantee you an admission in FLAME, as the SAT score is only one of the parameters we consider for selection. (Please refer to the section on 'Selection' for details). Needless to say, a high SAT score improves your chances of selection. If your SAT score is below 1700, we recommend that you reappear for SAT or take FEAT to improve your selection chances. The median SAT score of our applicants in the previous year was 1880.

# **RECOGNITION OF QUALIFICATIONS & EQUIVALENCE OF DEGREES**

**ASSOCIATION OF INDIAN UNIVERSITIES**  
16 COMRADE INDRAJIT GUPTA MARG  
NEW DELHI 110 002

## AN INTRODUCTION :

The Inter University Board (IUB) was established in 1925 and was renamed as the ASSOCIATION OF INDIAN UNIVERSITIES (AIU) in 1973. The need of an organization in India for equivalence of degrees between the universities in India and abroad was felt since long, after the establishment of three premier Universities (Bombay, Calcutta and Madras in 1857) and therefore, the Inter University Board was formed as an Autonomous Body.

The Evaluation Division was also established ever since with the inception of IUB/AIU.

Evaluation Division was entrusted with the task of recognition and assessment of degrees and diplomas awarded by the recognized Universities in India and abroad for purpose of admission to higher studies. This is one of the main objectives that AIU took upon itself and since been carrying out effectively for the last eighty five years.

AIU is the only recognized body in India for granting academic equivalence of degrees/diplomas not only within the country but also to other similar bodies in foreign countries.

In acknowledgement to the works done by the Division since its inception the Ministry of Human Resource Development, New Delhi, vide their letter No. Dated 13<sup>th</sup> May, 1995 issued a Notification that the equivalence done by AIU will be valid for the purpose of higher education as well as employment in the country.

Since then the Division started issuing Equivalence Certificates to individuals and till date the Division is facilitating the Universities also in granting Admission to various degree level programmes.

Not only to the Universities, AIU also provides its services, for equivalence of degrees to various Central & State Employment agencies viz. Union Public Service Commission, New Delhi and State Recruitment Boards.

The Division, besides Ministry of Human Resource Development, GOI, also facilitates to other Federal Ministries of India, to formulate the proposals on mutual recognition of degrees under Educational Exchange Programmes.

The Division continues to provide assistance on the status of foreign qualifications to Universities, Ministries of the Government of India, Union Public Service Commission, Indian Council for Cultural Relations and other Agencies concerning with the nomination/selection of foreign students in Indian Universities. The application forms of all the foreign students who are sponsored under various Central Government Scholarships/Ministries are sent to us, in order to assess their eligibility, to the courses in which they are seeking admission in Indian Universities. As the Division has established accountability as a reliable accrediting source/agency on the assessment/certification of equivalence of qualifications, we receive a number of enquiries from Credential Evaluation Service Agencies in other countries, as well.

## +2 LEVEL QUALIFICATIONS

Since AIU has already accorded equivalence to the Secondary stage qualification of most of the countries, world over, the students having obtained foreign qualifications do not face any problem to join Bachelor's degree programmes at Indian Universities.

However, there are a few countries, whose +2 level qualification have not been accorded equivalence due to their deficient system of school education i.e. Philippines, Myanmar etc. while some of them – Denmark, Greece, Algeria, Bolivia etc. have never approached us.

In case the system of education, duration of the course (i.e. 10+2/3) and the nomenclature of the Certificate issued on completion of the programme, is similar to those we have already accorded equivalence, AIU accords equivalence to +2 level qualifications.

It would also be appropriate to mention here that AIU accepts the 10 year Secondary and 12 year Higher Secondary/Intermediate/Pre-University/Senior Secondary Examinations conducted by the approved Boards, whose names have been included in the list brought out by the Council of Boards of School Education in India (COBSE), Delhi.
